15.000 €

Co-Host

1) Further information on the following slides

All prices excl. VAT.

Systems Engineering meets Industry | Be the next **Co-Host** of the SEC26

Co-Host
15.000 € excl. VAT

Content Exclusives

With an inspiring **keynote speech**, you will shape the content of the congress as the opener or closer of the event – your choice.

In the lecture program, which consists of different lecture streams, you will **convey your message** to experts in the field of systems engineering.

Show your colors on a **large stand** and strengthen your brand in the context of digital and sustainable engineering towards customers, suppliers and partners of the developing industry.

Program Exclusives

Take part in the **pre-event Speakers Meet and Greet** and get to know the experts exclusively.

As a co-host, set the tone for the congress, offer selected VIPs from your company **a personal exchange** with the chair holders and directors of the three institutes.

Thought leadership: Position yourself as an **innovative thought leader** in the Systems Engineering industry. Your expertise will help shape the Congress!

Sponsoring Exclusives

Choose freely from the **entire range of sponsorship options** and emphasize the visibility of your company at the event.

Show your **presence in all media** of the event before the start and during the SEC26 on advertising material and information boards on site.

We would be happy to create a **customized offer** according to your wishes and needs. Let's get creative together.

We would be happy to discuss with you which offers are particularly suitable for your company, take up your suggestions and plan with you a professional and sustainably effective implementation as co-host of SEC26.
